SNAP FASTENER DP 300

The DP300 fire retardant snap fastener system is entirely made from high performance-plastic material and is perfect for protective workwear. It is manufactured to be compatible with all major certifications regarding Workwear, Automotive and Technical Applications ensuring a strong reputation for safety and an efficient attaching system.

The DP300 is a lightweight, comfortable snap fastener which has been designed to be worn in dangerous working environments and provides protection against high temperatures and electric fault arcs.

SPECIAL FEATURES

- 100% metal free, high performance-plastic
- **High temperature resistance** according to EN ISO 11612 Tested according to ISO 17493
- **Fire retardant** according EN ISO 11612 tested according EN ISO 15025
- NFPA 2112 (2012 edition) High temperature resistance tested and certified by UL
- **Water proved** according EN 343 - Test according EN 20811
- **Arcproof** (electric fault arc) IEC 61482-1-2:2014
- Antistatic
- Suitable for textile-rental services
- High durability
- Flat lock

ATTACHING INSTRUCTIONS

- Self-piercing attachment possible
- Manual and semi-automatic attachment possible
- application pressure 5 bar (input pressure min 6 bar)
- material thickness 0,3 mm – 1 mm (measured by YKK Stoffmess-Screw)
- Please avoid applying the product on rough textile layers

APPLICATIONS

- Multi-norm clothing
- Protective clothing (anti-static)
- Lightweight work wear

WASHING INSTRUCTIONS

- household laundry 60°C
- industrial laundry ISO 15797 washing procedure nr. 2
